

7 Questions To Ask When Creating an RFP for a School Communication Solution

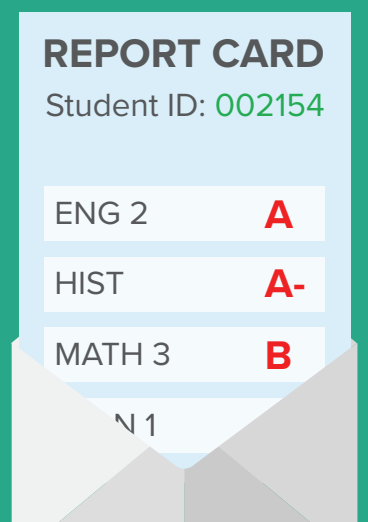

1. Does the solution offer unified communication services that connects all stakeholders?

2. How is the solution designed to effectively engage families?

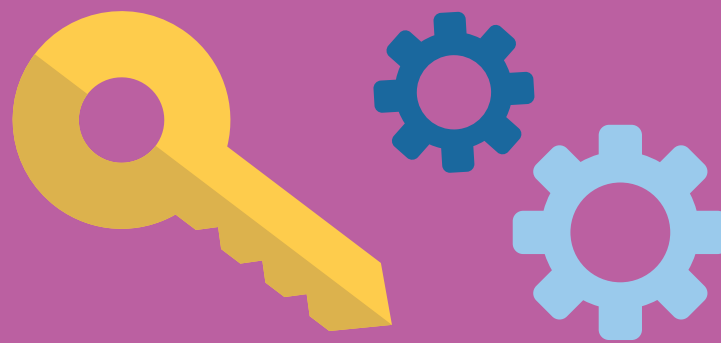

3. What communication and administrative processes should the solution streamline?

4. Can the solution send mass alerts and notifications efficiently?

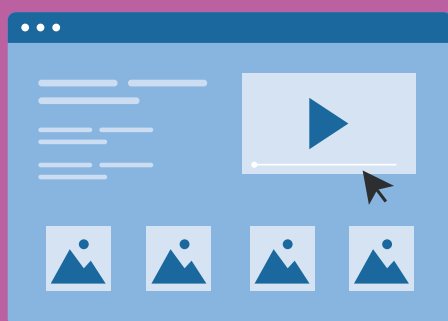

5. How does the solution integrate with current school systems?

6. Is the solution accessible to families in their preferred language?

7. Does the solution provide a rich website hosting and content management system?
