

Seamless Integrations

ParentSquare integrates with **all Student Information Systems (SIS)** via direct **API**-based integration, **SFTP** transfers, or through **Data Integrators**.

All integrations are built with data quality checks to prevent duplicates and data errors, especially for parent data that is usually not indexed in SISs. Below are a few examples of how we work with each SIS.

Direct Integration via API

- Aeries Communications
- eSchoolData
- eSchoolPLUS
- PowerSchool
- SAM Spectra
- SylogistEd

SFTP Transfer

Nightly automated sync where SIS has built-in support for transfers or ParentSquare provides scripts to district.

Built-in support by SIS

- Aequitas Q
- Genesis Educational Services (Genesis)
- Skyward Qmlativ
- Skyward SMS

- ASCENDER
- Aspen
- FACTS (SIS)
- FOCUS
- Infinite Campus
- Mindex (SchoolTool)
- Synergy

All other SISs can use SFTP format and easy CSV template files provided.

Data Integrators

- ClassLink (SSO)
- Clever (SSO, Rostering)
